re: Our file No. 205-357 (Fraud)

Dear Sir:

Spencer W Kimball

Please find enclosed one hard-bound book entitled HOAX.

It is requested that you process and examine this item for any latent prints which might be identified as belonging to Melvin E. Dummar, male Caucasian, 5' 10", 190 lbs. Blue eyes, brown hair, d.o.b. 8-28-44, Social Security No. [REDACTED]

Your laboratory has examined previous evidence in this investigation concerning this subject, which was submitted and received by your office on October 18, 1976.

It is possible that this book was used for research and for assisting in producing a forged handwriting in the preparation of a Howard Hughes will.

We are most appreciative of your great assistance in this matter, and we assure you of mutual cooperation in any matters within our jurisdiction.

Sincerely,

Honorable Robert List

November 23, 1976

Five latent fingerprints developed on the book and cards are not identical with the fingerprints of Melvin Earl Dummer, [REDACTED] No palm prints are available in our Identification Division files for this individual. b7c

Photographs of the unidentified latent prints have been prepared for our files and will be available for any additional comparisons you may desire.

Should you desire the assistance of one of the FBI's fingerprint experts in the trial of this case, we should be notified in ample time to permit the necessary arrangements. This report should be used, however, if legal considerations permit, in lieu of the appearance of our expert in any pre-trial action such as a preliminary hearing or grand jury hearing. Our representative cannot be made available to testify if any other fingerprint expert is to present testimony on the same point, that is, that the impressions in question are identical.

The book and cards are being returned under separate cover, along with your evidence envelope, and your mail envelope.

Your fingerprint division is presently in possession of a hard-bound volume of LIFE MAGAZINE, January through March, 1971, Vol. 70, from Weber State College, which was submitted by this office for examination, and holds FBI file No. 95-211845, Latent case No. B-38604. The January 22, 1971, issue, pages 24, 25, 26, 27 and 28, contains an article about Howard Hughes and illustrates some of his handwritten documents. It is believed that this magazine was used by Melvin Dummar to assist him in forging the will, a copy of which has been enclosed for your examination (Item B-2). Perhaps while this book is in your possession, you might be able to use it to assist you in your examination.

The questions we have concerning the documents submitted to you are:

Question, Item A:

Was the note written by the same person who addressed the envelope?

Was the note or the envelope written by Melvin Dummar, [REDACTED] or [REDACTED]

b7c

Question, Items B-1 and B-2:

Was the note written by the same person who wrote the Last Will and Testament?

Are the signatures copied or forged?

Were the note and Last Will and Testament written by Melvin Dummar, [REDACTED] or Howard Hughes?

b7c

Question, Items C, D and E:

Are these items written or signed by the same person (Howard Hughes)?

Note: It is hoped that the LIFE MAGAZINE in your possession may be of some assistance in making this analysis.

Please contact this office immediately if further handwriting samples are required to make these examinations.

Director,

Enclosed herewith for the Laboratory are ~~64~~ 64
yellow legal pages of handwriting of the late HOWARD
R. HUGHES.

The USA, Las Vegas, provided the enclosed
63 pages of handwriting of HOWARD R. HUGHES and advised
that perhaps they should be forwarded to the FBI Laboratory
in view of the fact that some examination is being made of
the so called "Mormon Will" by the Laboratory. The USA
stated that the enclosed handwriting has been authenticated
by HOWARD HUGHES during his life time when a trial was held
regarding the Air West Stock Case.

It is unknown to the Las Vegas Office the specific
investigation being conducted by the Laboratory for the
Attorney General in Carson City and this material is being
forwarded for whatever information the Laboratory can make
of the handwriting.

At the conclusion of examination, the handwriting
exemplars should be returned to the Las Vegas Office.

Our file #205-357

Dear Sir:

Please find enclosed two (2) documents consisting of 3 pages in all, with an accompanying letter addressed to myself from [REDACTED]

Document #1 consists of a signed proxy from Howard R. Hughes for the Sands, Inc., marked for identification as Defendant's Proposed Exhibit A, and dated 14th of Nov. 1970.

Document #2 consists of two (2) pages of 12 typewritten questions and handwritten responses from Howard R. Hughes which are marked as Plaintiff's Exhibit 1a c-71-72. These pages have inked fingerprint impressions at the bottom which purportedly belong to Howard R. Hughes, and are supposed to have been written in January of 1972.

It is our request that these documents be used for the following purposes:

- (1) For handwriting comparisons with the Hughes will and accompanying envelope.
- (2) For handwriting comparisons with the Hughes exemplars already submitted to you in this case.
- (3) That the ink fingerprint impression on Document #2 be compared with the existing fingerprint records in your files on Howard R. Hughes.

We request that these documents be photographed and a copy furnished to this office.

re: Our File No. 205357 (Fraud)

Spencer W. Kimball

Dear Sir:

Please find enclosed one hard-bound volume of LIFE magazines,
 January through March, 1971, Vol. 70, from Weber State College.

It is requested that you process and examine this item for any
 latent prints which might be identified as belonging to MELVIN
 E. DUMMAR, [REDACTED] and [REDACTED]

87c

I would also appreciate color photographs being made of pages
 24, 25, 26, 27 and 28 of the January 22, 1971, issue.

Your laboratory has examined previous evidence in this investigation
 concerning Melvin E. Dummar, which has already been processed.

It is possible that this book was used for research in preparing
 a forged document allegedly prepared by Howard Hughes.

We are most appreciative of your great assistance in this matter
 and the work that you have already performed, and we assure you
 of our continued cooperation in any matters of mutual concern.

A conclusive comparison of some of these latent fingerprints could not be conducted, inasmuch as they are from the extreme tips, sides and lower joint areas of the fingers. The extreme tip, side and lower joint areas of the fingers of the individuals named for comparison purposes are not available in our Identification Division files.

Palm prints are not contained in our Identification Division files for the aforementioned individuals.

Photographs of the latent prints have been prepared for our files and will be available for any additional comparisons that you may desire.

The specimen, because of the volume of work involved in processing same, was only processed by the ninhydrin method. The chemical stains were not removed from the specimen and, consequently, the latent prints should still be visible. The requested color photographs of pages twenty-four through twenty-eight of the January 22, 1971, issue are enclosed.

The results of the laboratory examinations and disposition of the specimen are the subjects of a separate laboratory report.

SPECIMENS

This report confirms and supplements information telephonically furnished on December 22, 1976.

The envelope, Q1, and the accompanying slip of paper, Q2, previously submitted in this case were processed by the three standard chemical methods used by the FBI. These methods are iodine fuming, ninhydrin, and silver nitrate. The seven latent fingerprints, including the one identified as the left thumb impression of Melvin Earl Dumar, [REDACTED] developed on Q1 and Q2 were by the ninhydrin process.

In view of the fact that the chemicals used are highly staining and may obliterate any writing on the specimens, the stains are removed after the latent prints

have been photographed. These photographs are retained in our files for future reference. The latent prints cannot be redeveloped.

The "HOAX" book, because of the volume of work involved in processing same, was only processed by the ninhydrin method. The chemical stains were not removed from the book and consequently the latent fingerprint of Dummer's should still be visible in the book.

Photographs of the two latent fingerprints identified with Dummer are enclosed.

Our file #205-357

Dear Sir:

Please find enclosed two (2) documents consisting of 3 pages in all, with an accompanying letter addressed to myself from [REDACTED]

Document #1 consists of a signed proxy from Howard R. Hughes for the Hughes, Inc., marked for identification as Defendant's Proposed Exhibit A, and dated 14th of Nov. 1970.

Document #2 consists of two (2) pages of 12 typewritten questions and handwritten responses from Howard R. Hughes which are marked as Plaintiff's Exhibit 1a c-71-72. These pages have inked fingerprint impressions at the bottom which purportedly belong to Howard R. Hughes, and are supposed to have been written in January of 1972.

It is our request that these documents be used for the following purposes:

- (1) For handwriting comparisons with the Hughes will and accompanying envelope.
- (2) For handwriting comparisons with the Hughes exemplars already submitted to you in this case.
- (3) That the ink fingerprint impression on Document #2 be compared with the existing fingerprint records in your files on Howard R. Hughes.

A conclusive comparison of some of these latent fingerprints cannot be conducted, inasmuch as they are from the extreme tips, sides, and lower joint areas of the fingers. The extreme tips, sides, and lower joint areas of the fingers of the individuals named for comparison purposes are not available in our Identification Division files.

Palm prints are not contained in our Identification Division files for the aforementioned individuals.

Photographs of the latent prints have been prepared for our files and will be available for any additional comparisons you may desire.

The specimens, because of the volume of work involved in processing same, were only processed by the ninhydrin method. The chemical stains were not removed from the specimens and, consequently, the latent prints should still be visible.

The specimens and your mailing wrapper are being returned separately.

PURPOSE:

To advise that the Document Section of the Scientific and Technical Services Division (STSD) has completed initial examinations of the so-called "Mormon Will" of Howard Hughes, performed at the request of the Attorney General of Nevada.

SYNOPSIS:

Handwriting examinations of the three-page "Mormon Will" of Howard Hughes determined that Hughes did not prepare either the handwritten will or the handwriting on the envelope which contained the will and that the will is an unskilled forgery. It was also determined that the questioned writings on the envelope and will are the result of an attempt to copy or simulate the genuine writings of Hughes and that those writings do not contain sufficient normal handwriting characteristics of the person or persons preparing them to allow identification or elimination of chief suspect Melvin E. Dummar or other listed suspects. The Attorney General of Nevada was advised of the results by Laboratory report dated 3/11/77. Ink examinations are continuing in the STSD and will be followed by examinations for latent fingerprints in the Identification Division.

BUREAU POLICY:

The evidence in this matter was examined as a Laboratory service to an authorized law enforcement agency, submitted during a criminal investigation of fraud and forgery, and the evidence was not previously examined by any other laboratory for purposes of criminal prosecution. This is long standing Bureau policy and the contributor was so advised.

DETAILS:

The Attorney General of Nevada, Honorable Robert List, initiated an investigation of the so-called "Mormon Will" of Howard Hughes and is contemplating charges of fraud and forgery against suspects Melvin E. Dummar, et al. During the course of the investigation, Chief Investigator Bruce Greenhalgh of the Nevada Attorney General's Office submitted to the STSD the outer envelope which contained a handwritten note and a sealed inner envelope containing the three-page handwritten will; the note, the inner envelope, and the three-page will, as well as known writings of Howard Hughes, Melvin E. Dummar, and other suspects. The FBI, Las Vegas, subsequently submitted additional samples of the writings of Hughes to assist in the comparisons.

Although it was not possible to determine the date of preparation of the submitted items by Document examinations, it was determined that the writings on the inner envelope and the three-page will were not written by Howard Hughes, but are the result of an unskilled attempt to copy or simulate genuine writings of Hughes. The writings prepared in that matter did not contain sufficient natural handwriting characteristics of the person or persons who prepared them to permit either the identification or elimination of Dummar or the other suspects. The writings on the outer envelope and enclosed note were too disguised to permit identification.

Ink examinations are continuing in the STSD. Thereafter, the inner envelope and three-page will are scheduled for examinations in the Identification Division for any latent fingerprints which might be present.

Memorandum to Mr. Cochran
RE: PURPORTED WILL OF HOWARD R. HUGHES

K12 Sheet of yellow ruled paper bearing the known
 handwriting of [REDACTED] b7c

Specimens personally delivered on 3/1/77 by Investigator [REDACTED]

ALSO SUBMITTED: Fingerprint cards of nine persons (for
 elimination purposes)

Result of examination:

This report confirms and supplements information
which was supplied telephonically to Chief Investigator Greenhalgh
on March 7, 1977.

The submitted photocopies, Qc1 through Qc7 and Kc1
through Kc3, do not reproduce the writings on the original
documents with sufficient clarity of detail for adequate
handwriting comparisons.

The writings on the Q1 envelope and the Q2 note were
slowly and deliberately prepared and contain inconsistencies,
indicating that they probably are not the natural writings
of the person or persons who prepared those writings. For
these reasons, no determination could be made whether Q1 and
Q2 were or were not prepared by MELVIN E. DUMMAR, the writer
of Kc1, K4 and a portion of K8; [REDACTED] the writer of
Kc2; or [REDACTED] the writer of Kc3, a portion of K8,
and K12. b7c

It was determined that the writings on the Q8 envelope and the Q9 through Q11 three-page will were not prepared by HOWARD R. HUGHES, the writer of K5 through K7, K9, K10 and K11. It was further determined that the writings on Q8 through Q11 represent an unskilled attempt to copy or simulate the genuine writings of HOWARD R. HUGHES. It was not possible to definitely determine which, if any, of the submitted genuine writings served as the model writings for the preparation of Q8 through Q11.

Due to the method of preparation of the writings on Q8 through Q11, those writings do not contain a sufficient quantity of the natural handwriting characteristics of the writer or writers who prepared them, preventing any determination whether those writings were or were not prepared by MELVIN E. DUMMAR, [REDACTED] or [REDACTED] 67c

Examinations of the Q8 envelope were limited to non-destructive methods which failed to reveal any conclusive evidence that the envelope had or had not been steamed open and subsequently resealed. However, excessive wrinkling was noted in the paper as well as slight bleeding of the ball-point ink writings. These characteristics are frequently found when a document has been subjected to steaming and subsequently manually pressed in an attempt to reseat an adhesive seal. Additionally, the discoloration and brittle and fragmented edges of the envelope could be explained by the envelope having been dried under high temperatures, covering and protecting the major portion of the envelope, but leaving the edges exposed.

The postage meter stamp impression on the reverse side of the Q8 envelope lacks sufficient clarity of line detail to permit a determination of the date or meter number by microscopic and special photographic examinations, nor could it be determined whether that impression was actually made by a mechanical postage meter stamp. However, the configuration, relative spacing of portions of the image, and the general design conform to those used on postage meters manufactured by Pitney-Bowes, Incorporated, of Stamford, Connecticut. It was noted that the impression does not fluoresce under ultra-violet radiation.

Examinations of the Q9 through Q11 sheets of paper were limited to non-destructive methods. It was determined that the streaking of the ball-point ink writings on those sheets are the result of applying a solvent along the right edges, resulting in right-to-left smearing of the writings. Additionally, the locations of those smears indicate that the solvent application occurred either while the three sheets were folded together or that the three sheets were folded while still wet, resulting in transferred writings and streaks at the folds.

The non-destructive examinations of the Q1 envelope, the Q2 note, the Q8 envelope, and the Q9 through Q11 sheets of paper failed to reveal any indented writings, watermarks, or other significant features which might be of assistance in determining either the source or the age of those documents.

You will be advised separately of the results of the examinations of the ink and stains on Q8 through Q11 as well as the results of the examinations of those items for latent fingerprints. Q8 through Q11 and the submitted fingerprint cards will be returned to your office at that time.

A high-contrast enlarged black and white photograph of the postage meter mark on the Q1 envelope is enclosed for your possible assistance. It is possible that a process referred to as "Image Enhancement" might be of value in determining the illegible date and meter number on Q1. This Laboratory is not equipped to perform such examinations at the present time. However, the following are currently engaged in that field of technology and may be of assistance. This listing should not be construed as an endorsement by this Bureau, nor should the absence of other names be misconstrued as a lack of endorsement.

All of the submitted specimens were photographed and those photographs have been retained. The Qc1 through Qc7 and Kc1 through Kc3 photocopies, Q1, Q2, K4, K8, and K12 are returned herewith. K9 was personally returned to Mr. LYNDAL L. SHANEYFELT on January 21, 1977. K10 was returned by registered mail to the FBI, Las Vegas, on February 24, 1977. K5, K6, K7 and K11 were personally returned to Investigator [REDACTED] of your office on March 1, 1977.

Dear Mr. Ferguson:

The F.B.I. Laboratory is presently examining a three-page handwritten document labeled Q-9, Q-10, and Q-11, and an envelope addressed to "Dear Mr. McKay" and labeled Q-8, F.B.I. File No. 95-211-845, our File No. 205-357.

Please examine these documents for any latent prints which might exist and attempt to identify them with any names previously submitted to you in the Melvin Dummar case (F.B.I. Latent Case No. B-38604).

It is understood by this office that examination for latent prints will cause some deterioration of the original documents, but in the interest of exploring every possibility, we feel this is necessary.

This letter will also confirm our telephone request to have all latents previously developed in this case compared to the known prints of:

The eight latent fingerprints have been identified as finger impressions of [REDACTED]. One of the latent palm prints has been identified as a palmar impression of [REDACTED].

b7c

The remaining latent palm print was compared, insofar as possible, with the submitted palm prints, but no identification was effected. Inasmuch as the submitted palm prints were not fully and clearly recorded, conclusive comparisons could not be made.

The previously reported unidentified latent fingerprints developed on Q1 and Q2 in this case were previously compared with the fingerprints of [REDACTED] and the results were set forth in Latent Fingerprint Section report dated March 21, 1977.

b7c

Photographs of the unidentified latent palm print have been prepared for our files and will be available for any additional comparisons you may desire.

The specimens and an identifying envelope are being returned under separate cover.

Result of examination:

This report supplements Laboratory report to your office in this matter dated March 11, 1977, and confirms information supplied telephonically to Chief Investigator Greenhalgh on April 14, 1977.

During the treatment for latent fingerprints of the Q8 envelope, a description of which can be found in the above-referenced Laboratory report, the flap of the envelope was physically removed and examined. It was observed that additional adhesive, different from the original water-soluble adhesive on the flap of the envelope, had been added to the flap prior to sealing. The presence of this additional adhesive, as well as the other features which were observed in the envelope and which were reported in the above-referenced Laboratory report, are consistent with envelopes which have been steamed open and resealed.

This examination has been made with the understanding that the evidence is connected with an official investigation of a criminal matter and that the Laboratory report will be used for official purposes only, related to the investigation or a subsequent criminal prosecution. Authorization cannot be granted for the use of the Laboratory report in connection with a civil proceeding.

PURPOSE: To advise of a telephonic request from Eli Blumenfeld, attorney for Noah Dietrich, for the latent print specialist who conducted the examination of the "Mormon Will" and related documents to give a deposition in Los Angeles, California, on 6/27/77.

DETAILS: On 5/16/77, Eli Blumenfeld, attorney for Noah Dietrich, telephonically *PC* contacted the Identification Division and requested that the specialist who conducted the latent print examination of the "Mormon Will," a note and two envelopes give a deposition in Los Angeles, California, on 6/27/77. Several latent prints were developed on these items and one latent fingerprint on the outer envelope, which contained the note, an inner envelope and the will, found in the Mormon Church in Salt Lake City, Utah, was identified as a fingerprint of Melvin Earl Dummar, *b7c* *Dummar* is alleged to have befriended Howard Hughes and was, according to the will, to receive one-sixteenth of Hughes' fortune. Blumenfeld also requested a deposition from the laboratory examiner relative to the results of that Division's examinations and was referred to SA *b7c* of the Laboratory Division. Blumenfeld was advised that, while the Bureau does not normally involve its personnel in civil matters, that on occasion where a technical examination was conducted in connection with a criminal investigation, the services of the technician are made available in civil actions. He was further advised that it would be necessary for him to furnish a letter setting forth his request in detail and that travel and per diem expenses would necessarily be paid by him. Blumenfeld was advised that Quintus L. Ferguson performed the latent print examination and was available to give the deposition on 6/27/77.

RECOMMENDATION:

That, when letter is received from Eli Blumenfeld setting forth his request in detail with the stipulation that travel and per diem expenses be paid by him, Quintus L. Ferguson proceed to Los Angeles, California, and give a deposition on 6/27/77, as to the results of his latent print examination.

Re memorandum from Robert C. Payne to Mr. Ash dated 5/18/77 captioned "Unknown Subject(s); Spencer W. Kimball-Victim; Anonymous Letter."

PURPOSE:

To advise of a telephonic request received from Eli Blumenfeld, Los Angeles attorney for Noah Dietrich, for a deposition from SA James E. Lile, laboratory document examiner, who conducted the document examinations of the so-called "Mormon Will" and the related envelopes.

DETAILS:

On 5/16/77, SA James E. Lile, laboratory document examiner, was in Los Angeles, California, for testimony in U.S. District Court on an unrelated matter. While in Los Angeles, SA Lile was telephonically advised that Eli Blumenfeld, Los Angeles attorney for Noah Dietrich who was a long time aide to Howard R. Hughes, desired SA Lile to provide a deposition to be used in civil actions related to the so-called "Mormon Will" of Hughes which was found at Mormon Church Headquarters in Salt Lake City, Utah. SA Lile had previously conducted document examinations of the two envelopes and three-page will at the request of the Attorney General of the State of Nevada related to a state criminal investigation of forgery and fraud. The results of those examinations were supplied to Nevada authorities by appropriate Laboratory reports and were subsequently released during pre-trial hearings in Las Vegas by the Nevada authorities.

Blumenfeld advised of his previous telephonic conversations with Supervisor [REDACTED] of the Latent Fingerprint Section, Identification Division, and that he understood that he would be required to provide a written request and thereafter to provide reimbursement for any travel and per diem expenses incurred relating to SA Lile providing the requested deposition at Los Angeles. He stated he will submit a letter to FBIHQ setting forth the request and providing a date for the deposition. b7c

On 5/23/77, Blumenfeld subsequently telephonically contacted SA Lile at FBIHQ and advised that his letter will be submitted requesting that SA Lile travel to Los Angeles, California to provide the deposition on 7/6/77.

RECOMMENDATION:

That upon receipt of the letter from Los Angeles attorney Eli Blumenfeld setting forth his request in detail and his agreement that travel and per diem expenses will be borne by him, SA James E. Lile will proceed to Los Angeles, California and give the deposition on 7/6/77 as to the results of the document examinations.

Dear Mr. Lile:

I've been informed by you and your supervisor, that, at the request of Nevada Attorney General List, you conducted certain physical tests on the purported Will of Howard R. Hughes, sometimes referred to as the "Mormon Will", the envelope containing such will, and other documents related to such Will as well as other documents relating to any and all individuals believed to be related in any manner to such Will. It is my understanding that such tests included, but were not limited to, an attempt to determine whether the envelope containing the Will was steamed open, whether additional glue was placed on the envelope flap containing such will, and whether any means was used to heat such envelope. You have indicated that all of such tests have been completed and conclusions have been reached with respect thereto.

Dear Mr. Ferguson:

You will recall that I am one of the attorneys who questioned you in Los Angeles about the FBI investigation of the purported will at issue in the above-entitled proceeding. At that time, you could not recall whether the book Hoax (the copy obtained from Weber State College) had signs of mutilation. Following your deposition, I made further investigation and am informed that the collection of photos showing pictures of Hughes' wife, the "Dear Chester and Bill" memo, etc. had been removed by someone. Apparently, however, unless one were specifically looking for a mutilation, the absence would not be too noticeable because the written text from page 150 to page 151 is continuous and evidently the removal did not disturb the general appearance of the book as a complete text; only threads tend to show that the material was removed rather than omitted by the binder.

Inasmuch as we are hopeful that you can be a witness at the trial, I would appreciate your reviewing your notes and recollection to see if you can confirm or deny this information.

If you are free to communicate with me on the subject, I would very much appreciate a collect telephone call.

PURPOSE: To advise that on June 20, 1977, in Los Angeles, California, Fingerprint Specialist Quintus L. Ferguson gave a deposition of the result of the latent print examination of the "Mormon Will," a note and two envelopes.

DETAILS: Memorandum from Robert C. Payne to Mr. Ash dated 5-18-77 advised that Eli Blumenfeld, Attorney for Noah Dietrich, telephonically contacted the Identification Division and requested that the specialist who conducted the latent print examination of the "Mormon Will," a note and two envelopes, give a deposition in Los Angeles, California. Letter from Eli Blumenfeld received setting forth his request in detail with stipulation that travel and per diem expense to be paid by him. Approval was granted for Ferguson to give a deposition.

Fingerprint Specialist Quintus L. Ferguson appeared in Los Angeles, California, on June 20, 1977, at the law office of Hal Rhoden, Attorney for the proponent of the "Mormon Will" - Noah Dietrich and gave a deposition as to the results of the latent print examination of the aforementioned will, a note and two envelopes. Also present for the deposition were the following attorneys:

Clay Lilienstein, representing Summa Corporation
Paul Freese, representing certain Hughes' heirs
Eli Blumenfeld and Harvey Strassmen, representing
the proponent of the "Mormon Will" - Noah Dietrich

PURPOSE:

To advise that SA James E. Lile, Laboratory document examiner, appeared at Los Angeles, California, on 7/8/77 and provided a civil deposition concerning his document examinations of the so-called "Mormon Will" of Howard R. Hughes. *7*

DETAILS:

Document examinations of the three-page "Mormon Will" of Howard R. Hughes were conducted by SA Lile of the FBI Laboratory at the request of the Attorney General for the state of Nevada concerning alleged forgery and fraud and the results of those examinations were supplied to his office by Laboratory reports dated 3/11/77 and 4/18/77. The Laboratory reported that the will was not prepared by Hughes and that the will is an unskilled attempt to copy or simulate the writings of Hughes. It was not possible to either identify or eliminate any of the several suspects listed as the actual forger.

MEMORANDUM KELLY TO KELLEHER
Re: Purported Will of
HOWARD R. HUGHES;
MELVIN DUMMAR - SUSPECT;
ALLEGED FORGERY

On 5/16/77, ELI BLUMENFELD, attorney for NOAH DIETRICH, who was named in the will as executor, telephonically contacted the Laboratory and Identification Divisions requesting that the fingerprint specialist and the document examiner who performed examinations of the will give civil depositions in this matter at Los Angeles, California. BLUMENFELD was advised that the Bureau does not normally involve its personnel in civil matters, but that on rare occasions where technical examinations were conducted in connection with criminal investigations, the services of the FBI experts are provided in subsequent civil actions stemming from the criminal investigations. He was advised that it would be necessary for him to make a formal written request and, if approved, he would have to reimburse the U. S. Government for travel and per diem expenses incurred by the FBI personnel in connection with those civil depositions. Fingerprint specialist QUINTUS L. FERGUSON subsequently provided the civil deposition at Los Angeles on 6/27/77, concerning the results of the fingerprint examinations.

On 7/8/77, SA James E. Lile, Laboratory document examiner, appeared at the offices of attorney HAROLD RHODEN, 2049 Century Park East, Suite 1800, Los Angeles, California, to provide the civil deposition. Participating in the deposition were the following: attorney ELI BLUMENFELD, representing executor NOAH DIETRICH; attorney PAUL L. FREESE of Los Angeles, representing contestants BARBARA CAMERON, et al; attorney CLAY LILIENSTERN of Houston, Texas, representing contestant ANNETTE GANO LUMMIS; GINO MENCHETTI, attorney representing the Attorney General of the state of Nevada; CARMEL VERODI, notary public who recorded the proceedings. The deposition lasted from 10 a.m. until 6:30 p.m., with breaks for lunch, etc., and consisted of questions and answers concerning the Laboratory procedures followed and the results of the examinations. SA Lile departed Los Angeles on the morning of 7/9/77, for return to FBIHQ.

Re: Appearance of Special Agents of the Federal
Bureau of Investigation James E. Lile and
Quintus Ferguson in the Matter of the
Estate of Howard Robard Hughes, Jr.,
Deceased

Dear Mr. Blumenfeld:

At the request of the Director of the Federal
Bureau of Investigation and the Deputy Attorney General of
the United States, I am addressing this letter to you.

You are under the erroneous impression that Chris
Mazella, Esquire, informed you that special agents of the
Federal Bureau of Investigation would appear as witnesses
in the trial of the matter of the estate of Howard Robard
Hughes, Jr. This is incorrect. Mr. Mazella never made such
a statement nor would he be authorized to do so.

It is not the policy of the FBI to produce expert
witnesses for the trial of civil matters. To do so would
create an undue burden on the FBI. The Laboratory Division
and Identification Division of the FBI are already over-
burdened with the high case load and commitments for testi-
mony in local and federal criminal trial matters. To provide
Bureau experts for civil purposes in a civil trial for an
indefinite period of time would be an abuse of the needs of
the criminal justice system and not in conformance with policy
guidelines set out by the Department of Justice and the FBI.

There was an understanding between the FBI, the Department of Justice and yourself that the depositions of the agents would be used in place of actual trial testimony so as not to tie them up for an indefinite period of time or to unduly burden the FBI. As a consequence, the agents were allowed to give depositions in this matter. We would hope that you would honor this agreement. Further, you pointed out in your letter of October 10, 1977 to Special Agent James E. Lile that "it will be deemed compliance with such requirement to inform you that the questions which will be posed to you at the trial will be consistent with those at your deposition in the above matter on July 8, 1977." It is clear from your statement alone that their depositions will satisfy your needs at the trial stage.

The depositions of the two special agents are complete and extensive, and all parties to the lawsuit were present. There was ample opportunity for the agents to fully explain their testimony and for all parties to cross-examine them at length. Further, it is our understanding that other experts similar to Special Agents Lile and Ferguson have been retained by both parties in this matter as experts to testify with regard to handwriting exemplars and other pertinent matters at the civil trial. Hence, the testimony of Special Agents Lile and Ferguson would be repetitive and their depositions should be satisfactory to the Court.

You are also under the mistaken impression that the Department of Justice accepted certain subpoenas on behalf of Special Agents Lile and Ferguson. This is simply not the case. The Department of Justice has not accepted service of process nor waived the requirements of process as stated under Nevada Revised Statutes 45(e)(1):

At the request of any party subpoenas for attendance at a hearing or trial shall be issued by the clerk of the district court for the district in which the hearing or trial is being held. A subpoena requiring the attendance of a witness at a hearing or trial may be served at any place within the State.

Eli Blumenfeld, Esquire
November 9, 1977
Page 3

Inasmuch as these subpoenas were not served on the special agents within the confines of Nevada, they have no effect and grant no jurisdiction to the Nevada courts over these two special agents.

Re: Estate of Howard R. Hughes, Jr.

Dear Mr. Mintz:

Within the last several months, Messrs. Quintus Ferguson and James E. Lile, as representatives of your organization, participated in an investigation, at the request of the Attorney General of the State of Nevada, concerning the purported authenticity of a will offered for probate in Las Vegas. Specifically Mr. Ferguson as a fingerprint expert, and Mr. Lile as a questioned document examiner made studies and findings which would indicate that the purported will is a forgery. Their availability as witnesses, and the availability of Donald Stanzel, back-up examiner, are considered as crucial matters with respect to establishing the truth in the above proceedings.

This office as attorneys for certain Contestants of the purported will would like to make arrangements, at our expense, for the appearance of Messrs. Ferguson, Lile, and Stanzel at the trial in Las Vegas. We expect to make every reasonable effort to schedule their testimony so as not to interfere unduly with their other responsibilities.

The trial is scheduled to commence on November 7, 1977. It appears unlikely that the Contestants will put on their presentation before December. When the time becomes

Re: Estate of Howard R. Hughes, Jr.

Dear Mr. Freese:

This is to acknowledge your letter of October 25, 1977, in which you requested the presence of Mr. Quintus Ferguson and Special Agents (SA) James E. Lile and Donald E. Stangel as witnesses in a civil action involving the above-captioned matter.

In this regard, please be advised that this Bureau has received subpoenas from the Attorney for Defendant-Proponents seeking from Mr. Ferguson and SA Lile essentially the same testimony as you are requesting. For your information, I have decided not to approve the appearances of SA Lile and Mr. Ferguson at the aforementioned proceedings inasmuch as they have already testified extensively at depositions at which all interested parties were afforded an opportunity to cross-examine SA Lile and Mr. Ferguson. Furthermore, their extensive testimony at the deposition hearings was given with the specific understanding that no further personal appearances at subsequent proceedings would be called for.

Pursuant to Title 28, Code of Federal Regulations, Section 16.24 (b), as amended by Department of Justice Order No. 693-77, effective March 30, 1977, I referred this matter to the Deputy Attorney General, U. S. Department of Justice, Washington, D. C., for his final decision. For your further information the Deputy Attorney General has agreed with my recommendations and has issued instructions to the United States Attorney's Office in Las Vegas, Nevada, to resist the subpoenas for the testimony of ~~Mr. Ferguson~~ and SA Lile.

In your letter of October 25, you also requested the presence of Donald E. Stangel in the above-captioned matter. My review of this situation indicated that Mr. Stangel can offer nothing more than that which has already been furnished in previous depositions. Therefore, I have decided not to authorize Mr. Stangel's appearance at proceedings involving the Estate of Howard R. Hughes, Jr.

NOTE: By letter dated 10/25/77, Attorney for Contestants requested the appearances of SA's Lile and Stangel and Mr. Ferguson at civil trial. Lile and Ferguson had previously been extensively deposed pursuant to understanding that no further testimony would be requested of them. However, Lile and Ferguson were subpoenaed to testify at trial but Director had decided not to approve appearances due to extensive testimony already furnished in depositions. The matter was referred to the Deputy Attorney General pursuant to Title 28 of the Code of Federal Regulations and he concurred with Bureau's position. Instructions were issued by Department to United States Attorney in Las Vegas, to resist subpoenas. This communication sets forth the status of subpoena matter and informs Attorney for Contestants that requests for appearances of SA's Lile, Stangel and Mr. Ferguson are refused.

Re: Estate of Howard Robard Hughes, Jr.

Dear Mr. Lile:

This confirms our telephonic agreement that you will be available to testify in the matter of the Estate of Howard Robard Hughes, Jr., deceased, during the period from November 20 to December 10, 1977. The trial in the above case has been scheduled to commence on October 3, 1977 at the Clark County Courthouse, at 200 East Carson Avenue, Las Vegas, Nevada.

At the time of your testimony, you have agreed to bring with you any and all reports, information and other documents used by you in any way in conducting your investigation and reaching your conclusions, as well as any reports on the results of such investigation with respect to the purported "Mormon Will."

It has been agreed that you will appear at the trial and bring the above material with you without the necessity of a subpoena issued in connection therewith.

Please sign a copy of this letter indicating your agreement to appear, as set forth above, and return such copy in the enclosed self-addressed stamped envelope to the undersigned. As agreed, we will reimburse your office for any and all costs incurred in connection with your appearance in Las Vegas for this trial.

PURPOSE:

To advise that SA James E. Lile, Laboratory document examiner, has received a written request to testify at the civil trial concerning the Estate of Howard Robard Hughes, Jr. at Las Vegas, Nevada. Testimony by FBI Laboratory personnel in a civil matter in which the Federal Government has no direct official interest is contrary to existing policy and in the past, when it has occurred infrequently, has required a departmental ruling. Information is being supplied to Legal Counsel Division for review and for possible presentation to the Department for such a ruling.

DETAILS:

At the request of the Attorney General for the State of Nevada, the so-called "Mormon Will" of Howard R. Hughes was examined in the FBI Laboratory and Identification Division, Latent Fingerprint Section, in connection with a state investigation of suspect MELVIN DUMMAR for forgery and perjury. DUMMAR was named in the will as one of several beneficiaries. Handwriting examinations determined that the will is a forgery and DUMMAR'S fingerprints were identified on an envelope which contained the will. SA Lile, FBI Laboratory document examiner, and latent fingerprint specialist Quintus Ferguson subsequently received correspondence from attorney ELI BLUMENFELD of Los Angeles, who is representing Noah Dietrich, a long-time aide of Hughes who was named in the will as executor. ADDENDUM LEGAL COUNSEL, CM:las, 10/7/77

On 9/26/77, SA Christopher Mazzella, Legal Counsel Division, telephonically advised Blumenfeld that it would be necessary for him to comply with Title 28, Code of Federal Regulations (CFR), Section 16.21 et seq before any consideration could be given to authorizing SA Lile to testify, or for the FBI to produce any documents at the scheduled civil trial. Mr. Blumenfeld indicated his intent to subpoena SA Lile for testimony.

Legal Counsel Division concurs with the position that SA Lile not testify inasmuch as SA Lile has previously been deposed in lieu of his personal appearance at later proceedings.

Legal Counsel Division recommends that the Laboratory Division prepare and dispatch a letter to Mr. Blumenfeld over the Director's signature notifying him of our decision not to accede to his request that SA Lile testify. Legal Counsel Division feels this letter should state as the reason for our refusal the fact that the earlier extensive deposition was given with the understanding that it would be in lieu of SA Lile's personal appearance and because further appearances would create undue burdens on the workload of SA Lile and the Laboratory Division.

If a subpoena is received, it should be referred to Legal Counsel Division which, would in turn, present the matter to the Department for final resolution in accordance with the CFR.

Subpoena received prior to any action taken. Handle by the Dept. via letter to Blumenfeld for the USA, Las Vegas. No action necessary in Lab. jef

granted for SA Lile and Ferguson to provide civil depositions at Los Angeles. This was done with the prior agreement that BLUMENFELD reimburse the government for all expenses incurred. SA Lile subsequently received a copy of the resulting 189 page deposition of his testimony (copy attached).

On 9/9/77, BLUMENFELD telephonically contacted SA Lile at FBIHQ, advising that the civil trial in this matter was scheduled to begin at the Clark County Courthouse, Las Vegas, Nevada on 10/3/77. He advised that he desired SA Lile to testify at the trial sometime during the period of 11/20-12/10/77. BLUMENFELD was advised that such testimony at a civil trial in which the Federal Government has no direct official interest is contrary to existing practices and that infrequent instances in the past where the issue has arisen have been forwarded to the Department of Justice for an official ruling. He was advised to put his request in the form of a letter and that consideration would be given his request thereafter. His letter dated 9/9/77 was received at FBIHQ on 9/14/77. A copy of that letter is attached. All previous correspondence in this matter is located in Bureau file 95-211845.

RECOMMENDATION:

That the Legal Counsel Division review this matter, forwarding it to the Department of Justice if necessary, and thereafter advise the Laboratory whether SA Lile should or should not agree to BLUMENFELD'S request and testify at the civil trial. It should be noted that a major factor involved in the previous decision to agree to his request for the taking of the civil depositions was the belief that the depositions would later be used in lieu of the personal testimony of SA Lile at the trial, resulting in a savings of employee time. Additionally, the Nevada criminal case is still pending against DUMMAR and has not yet come to trial. Testimony at the civil trial might feasibly jeopardize the success of the later criminal prosecution. It should be noted that although the letter mentions several "agreements," no such agreements were made during the telephonic conversation.

TO : Mr. Kelleher

FROM : R. T. Kelly

SUBJECT: PURPORTED WILL OF HOWARD R. HUGHES;
MELVIN DUMMAR - SUSPECT;
ALLEGED FORGERY

Re letter to Director from Attorney ELI BLUMENFELD, dated 5/24/77, memorandum from Carl Lilja, Jr., to Mr. Kelleher, dated 5/24/77, memorandum from Robert T. Kelly to Mr. Kelleher dated 7/12/77, and Travel Voucher of SA James E. Lile dated 7/29/77 (copies of each are attached.)

PURPOSE:

To provide sufficient information to the Finance and Personnel Division to enable that division to direct appropriate correspondence to Attorney ELI BLUMENFELD, Los Angeles, California, requesting reimbursement to the government for expenses incurred relating to a civil deposition given by SA James E. Lile of the FBI Laboratory at Los Angeles on 7/8/77.

DETAILS:

By previous arrangement (see Blumenfeld letter to Director and Carl Lilja, Jr. memorandum to Mr. Kelleher, both dated 5/24/77) SA James E. Lile, FBI Laboratory Document Examiner, travelled from FBIHQ to Los Angeles, California, and, on 7/8/77, provided a civil deposition concerning his examinations of the so-called "Mormon Will" of Howard R. Hughes (see memorandum from Robert T. Kelly to Mr. Kelleher dated 7/12/77). A copy of the resulting 190 page transcript of that deposition was subsequently received in the Laboratory on 8/15/77.

Attached is a copy of the Travel Voucher of SA Lile dated 7/29/77, reflecting a \$392.00 government expenditure for the cost of travel and \$95.45 in per diem and other expenses incurred in connection with the giving of that deposition.

Re: Estate of Howard Robard Hughes, Jr.

Dear Mr. Lile:

I've been informed by you and your supervisor, that, at the request of Nevada Attorney General List, you conducted certain physical tests on the purported Will of Howard R. Hughes, sometimes referred to as the "Mormon Will", the envelope containing such will, and other documents related to such Will as well as other documents relating to any and all individuals believed to be related in any manner to such Will. It is my understanding that such tests included, but were not limited to, an attempt to determine whether the envelope containing the Will was steamed open, whether additional glue was placed on the envelope flap containing such will, and whether any means was used to heat such envelope. You have indicated that all of such tests have been completed and conclusions have been reached with respect thereto.

In accordance with our telephonic conversation, it has been agreed that your deposition, with respect to your investigation and conclusions, will be taken in Los Angeles, California at 2049 Century Park East, Suite 1800, Los Angeles, California, 90067, ~~July 6, 1977~~ *7/8/77* at 10:00 A.M. and will continue until such deposition is completed. It is also agreed that you will bring with you to such deposition any and all reports and documents used in conducting your investigation and reaching your conclusions, as well as any reports on the results of such investigation. It has been agreed that this will be done without the necessity of a subpoena issued in connection therewith.

Please sign a copy of this letter, indicating your agreement to have your deposition taken, as indicated above, and return such letter to the undersigned in the enclosed self-addressed stamped envelope. As agreed, we will reimburse your office

Dear Mr. Lile:

See
As you are aware, the trial of the above case has been continued to November 7, 1977. Consequently, the date of your appearance as a witness has been changed to the period commencing December 7, 1977 through December 31, 1977. Of course, we will give you as much advance notice of the actual date for your appearance as possible.

This confirms my telephonic agreement with Mr. Chris Mazella, Esq., of the Department of Justice that you will appear as a witness in the above-entitled case upon call by me all as detailed in my September 9, 1977 letter to you, a copy of which is attached and which is incorporated herein as though fully set forth.

Enclosed is a subpoena with respect to your appearance as a witness which Mr. Mazella has agreed can be mailed to you and further that you will comply therewith as if it was served upon you in the state of Nevada. *I*

Additionally, it was agreed that in lieu of a required affidavit by the undersigned setting forth the summary of your requested testimony, it will be deemed compliance with such requirement to inform you that the questions which will be posed to you at the trial will be consistent with those at your deposition in the above matter on July 8, 1977.
